

# Retractable Screening and Shading Solutions

PHANTOM'S retractable door, window, pleated and motorised screens are at home in virtually any setting. Phantom Screens are offered in a wide variety of popular designer colours and styles to coordinate with the individual decor of your home. With their unique design they're there when you need them and invisible when you don't.

Phantom Screens fit virtually anywhere, require minimal space, and enhance the beauty and comfort of any home. They provide all the practical conveniences of conventional screens without compromising the integrity of a home's design. Phantom Screens are an innovative solution for discerning homeowners, designers, architects, and builders who wish to realise their best creative insights.

Phantom's Executive Screens are designed for integration into large applications up to eight metres wide and five metres high for retrofit or new construction projects, and can be mounted on both the interior and exterior of buildings. Executive Screens provide the ideal screen solution for oversized openings including outdoor entertaining areas, covered patios and balconies.

Our latest addition to our product range, the Panoramic Pleated Screen, an innovative and functional solution to screening very large openings of up to 3.2 metres high and nine metres wide for a double screen.
